## Electronic Time Recorder

### SET IT...AND FORGET IT!

The PIX-3000x Electronic Time Recorder is the system that you set and forget. With the automatic adjustment for Daylight Saving Time, New Years, leap years, and short months, this time recorder does all of the work for you. By allowing us to do your payroll recording, the time that will be saved can be spent taking care of other aspects of your job.

### *Incredibly accurate!*

Quartz clock accuracy ensures that employee's recorded punches are precise day after day.

### *Carefree operation!*

Clock automatically adjusts for Daylight Saving Time, New Years, leap years, and short months, so you don't have to worry about resetting for these time changes.

### *Eliminates concern over losing critical data!*

The full power reserve will keep the clock fully operational for 72 hours or 400 punches.

### *You are in control!*

Gives you the option to select either manual or automatic printing. . . use the one that you prefer!

### *Extremely durable!*

Since this is the most durable clock of its kind on the market, you can be confident that your investment is safe, even in harsh environments.

### *Easy to operate!*

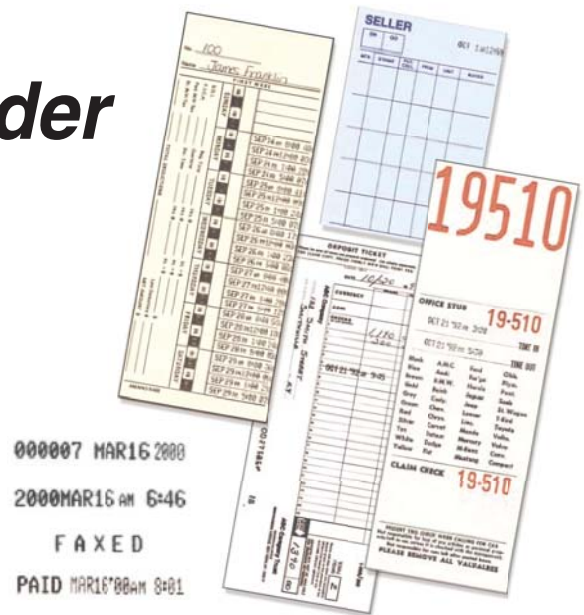

This clock is so simple to use that it will be up and running virtually right out of the box.

### *Proven track record!*

After 10 years on the market, and an excess of 100,000 units sold, the quality of this product clearly speaks for itself.

### *Decide for yourself what you want printed!*

A variety of imprint formats are available. You choose whether you want year, month, day, date, hour, minutes, seconds, three-digit number, six-digit number, or user defined characters to print.
